PROFILE

Software Engineering student with a dual background in mobile development and Data Science, having completed dedicated training in both domains at AJK IT Excellence Center. Proficient in Python with foundational knowledge in data workflows, complemented by 4 months of professional Flutter development experience. Built 3+ projects across mobile and data domains. Targeting roles in Data Science or Software Engineering where I can grow into AI-driven product development.

ACCOMPLISHMENTS

Certification	Issuing Body	Year
Mobile App Development — 6-Month Program	**AJK IT Excellence Center**	**2023**
Data Science — 6-Month Program	**AJK IT Excellence Center**	**2024**
Flutter Mobile Development — Internship Completion	**Kashmir Tech, Rawalakot**	**2024**
Youth Exchange Program for Sustainable Future — Entrepreneurship & Business Development	**University of Poonch, Rawalakot**	**2025**

WORK EXPERIENCE

Computer Studies Teacher — PEBCA, Rawalakot *August 2025 – January 2026*

- Delivered structured computer science lessons to 60+ students covering fundamentals through intermediate topics including MS Office, programming basics, and digital literacy
- Designed lesson plans aligned with curriculum requirements, adapting teaching methods to mixed skill levels within the classroom
- Improved student confidence and practical computer skills through hands-on exercises and assessments

Mobile App Developer (Intern) — Kashir Tech, Rawalakot *June 2024 – November 2024*

- Contributed to 4+ mobile applications across the full development cycle, from UI implementation to deployment-ready builds using Flutter and Dart
- Designed and built responsive UI screens and layouts following real client requirements and material design principles
- Integrated third-party REST APIs into live applications, handling data fetching, parsing, and error states
- Diagnosed and resolved bugs across multiple active projects, improving app stability and user experience
- Collaborated with the development team on end-to-end app delivery, gaining exposure to professional workflows, code reviews, and project timelines

PROJECTS

Hawkeye Travel App | Flutter, Google Maps, REST APIs
github.com/hassan674-glitch/hawkeye-travel-app
- Travel discovery app with Google Maps integration and location-based UI

Grocery App | Flutter, Dart
github.com/hassan674-glitch/grocery-app
- E-commerce style grocery shopping app with product listings and cart management

Chat App | Flutter, Firebase, Dart
github.com/hassan674-glitch/chat-app11002
- Real-time messaging application built with Firebase backend

Todo App | Flutter, Local Storage, Dart
github.com/hassan674-glitch/todo-app
- Task management app with local persistence and clean UI

EDUCATION

University of Poonch, Rawalakot
Software Engineering | Expected Graduation: Nov 2027 | CGPA: 3.2 / 4.0

AREAS OF EXPERTISE

Communication & Presentation Skills	Problem Solving & Logical Thinking	Soft Skills
Programming Fundamentals	Computer Fundamentals & Digital Literacy	MS Office (Word, Excel, PowerPoint)
Object-Oriented Programming (Basic)	Classroom Teaching & Student Management	
Software Engineering Concepts		

TECHNICAL PROFICIENCIES

Category	Skills
Mobile Development	**Flutter, Dart, Android Studio, VS Code**
Backend and Database	**Firebase, Rest APIS, SQLite**
Integrations	**Google Maps APIS, Payment Gateways**
State Management	**Getx, Provider, Bloc**
Data And AI	**Python, Data Science Fundamentals, Pandas**
Other	**C++, C#, Java, Microsoft Professional, Git , GitHub**

HOBBIES

Data Science and AI Learning	Teaching and Mentoring	Reading Technological Articles	Chess and Snooker	Tourism

LANGUAGES

English, Urdu
